KIRAN RAMESH ADEP

kiran221202adep@gmail.com | +91 82371 91465 | GitHub | LinkedIn | Portfolio

Profile

Motivated software developer with hands-on experience in building web applications and APIs using the .NET ecosystem. Comfortable working with databases, collaborating in team environments, and delivering reliable features with clean, maintainable code. Actively learning and improving through real-world projects and internships.

Technical Skills

Programming Languages: C#, SQL
Frameworks & Platforms: ASP.NET Core, ASP.NET Web Forms, .NET 6/7/8
Backend Development: RESTful APIs, MVC Architecture, Middleware, Dependency Injection
ORM & Data Access: Entity Framework Core, ADO.NET, LINQ
Databases: SQL Server, PostgreSQL
Authentication & Security: JWT Authentication, Role-Based Authorization
Frontend Basics: HTML, CSS, JavaScript, Basic React Integration
Version Control & Tools: Git, GitHub, Postman, Swagger
AI & Tools Exposure: OpenCV, YOLO, CNN (Academic), AI Developer Tools

Internship Experience

Jr. Software Engineer, Cravita Technologies (Intern) *Apr 2025 – Oct 2025*
Developed and maintained dynamic web modules using ASP.NET Web Forms and SQL Server. Optimized stored procedures and backend queries, improving performance and scalability. Collaborated with frontend developers and QA teams to ensure smooth integration and reliable deployments.

Data Analyst, Zidio Development (Intern) *May 2024 – Aug 2024*
Built social-media-driven customer segmentation tools improving targeting by 15%. Developed voice-based emotion detection and live digit recognition modules using CNNs and Tkinter. Enhanced dataset preprocessing and model accuracy through deep learning-based tuning.

Projects

Smart Attendance System (ASP.NET Core, React.js, React Native, PostgreSQL) *Oct 2025 – Present*
Developed a full-stack attendance management system with JWT-based role authentication, QR-based student onboarding, and secure access control.
Implemented geo-location and time-based attendance validation with responsive web and mobile interfaces using React.js and React Native.

HR Recruitment Portal (ASP.NET Core 8, PostgreSQL, Render Deployment) *Oct 2025*
Built a secure recruitment platform supporting multiple user roles with optimized PostgreSQL queries and role-based authentication.
Deployed and maintained the application on Render with cloud proxy configuration for reliable production access.

ClinicCare (ASP.NET Web Forms, ADO.NET, AVIEN Cloud Database) *Sept 2025*
Designed a healthcare management system for online appointment booking, patient data handling, and cloud-based storage.
Implemented role-based access control with optimized backend CRUD operations for Admin, Doctor, and Patient modules.

Loan Application System (ASP.NET Web Forms, ADO.NET, RailwayDB) *Aug 2025*
Developed a loan processing application supporting loan requests, approvals, and repayment tracking.
Integrated ADO.NET for database operations with separate dashboards for Admin and User roles.

3rd Eye: Real-Time Event Detection (Python, OpenCV, YOLOv5) *Apr 2024*
Built a real-time fire and event detection system using YOLOv5 and OpenCV with labeled datasets.
Trained and evaluated models using Roboflow and Google Colab with Flask-based backend integration.

Education

Bachelor of Technology (Computer Science) *Jan 2021 – July 2024*
N.K. Orchid College of Engineering & Technology, Solapur, Maharashtra

Higher Secondary School (Science) *Jul 2018 – Feb 2020*
D.B.F. Dayanand College of Arts & Science, Solapur

Soft Skills

Team Collaboration — Analytical Thinking — Time Management — Adaptability — Accountability — Attention to Detail
